# Plant a Seed-READ!

*enjoy* this delightful and engaging story time with a reading of *Plant a Seed & See What Grows* children's book. It is a whimsical, rhyming story about Micheal who discovers the miracle of seeds and the wonders of the natural world.

It's a great allegory that reminds us all that for children to achieve their full potential they need to be encouraged and inspired, like a garden that explodes into life when it gets what it needs. Recommended for children ages 3-8 years-old.
